

Filling Adapter

Field of application | Refilling of oil

The use of a filling adapter allows easy and convenient refilling of oil into a hydraulic unit or transmission without dismantling the adsorber. The filling adapter is available with bolt circle for hydraulic tanks as well as with screw thread for gearboxes and is supplied with all components required for assembly, such as screen, seals and screws.

Hydraulic Power Packs

Gears

	FILL-LK73_AL	FILL-AD_AL	FILL-LK73_SS
